Regional Trainings: ICD-10 Health Codes Conversion and End of the Year Data Clean Up

The Kentucky Department of Education's School Health Services program will be hosting regional trainings for the purpose of assisting with the conversion of health codes from the current ICD-9 to the updated ICD-10 in Infinite Campus. KDE staff will assist school district personnel with converting any ICD-9 codes that remain after the official Infinite Campus conversion to ICD-10.

This is a "hands-on" training. Participants should bring a laptop with access to their district Infinite Campus website. Wi-Fi will be available.

KDE staff will be available at the training site after the training to work with individuals who have additional questions or need further assistance. EILA certificates will be available after the conclusion of the training. For more information, please contact Angie McDonald at (502) 564-5279, ext. 4430, or by email at angela.mcdonald@education.ky.gov.

Training Dates

April 18 – Bowling Green, Warren County Schools Board of Education

April 19 – Paducah, Paducah Independent Schools Board of Education

April 21 – Lexington, Central Kentucky Educational Cooperative

April 26 – Ashland, Kentucky Educational Development Cooperative

April 27 – Hazard, Kentucky Valley Educational Cooperative

April 28 – Fort Wright, Kenton County Schools Board of Education

Registration will be limited to 25 per session. If the session that you select is filled, you will be directed to select another session.

End of the Year (EOY) State Reporting

The annual end of the year health data pull will occur on **June 1**. The data will be published in the Supplemental Data tab in Open House later in the fall. Districts should review and clean up all student health data before the data is pulled by KDE.

For more information regarding end of the year data, please consider attending one of the regional ICD-10 and data clean up trainings listed above or by visiting the data portion of the District Health Coordinators Briefcase by clicking [here](#).

Save the Date

Yearly District Health Coordinators Meeting

The yearly District Health Coordinators Meeting will be Sept. 14. Watch the School Nurse and District Health Coordinator listserv and the School Health Services website for more information.

National Association for School Nurses (NASN) Coming to Indianapolis

The National Association of School Nurses (NASN) will be hosting its annual school nurse conference June 30-July 3 in Indianapolis. This is an excellent opportunity for Kentucky school nurses, as this is the closest national meeting location to Kentucky for the next several years. Attendees will have the opportunity to earn up to 20.5 CNE hours that directly apply to school nursing. NASN has provided a tool kit for school nurses to present to employers and administrators when asking for sponsorship to attend.

This tool kit can be found [here](#). Registration and lodging reservations are now open [here](#).

Step Up and Be Counted

School nurses collect rich and important data. NASN and NASSNC are working together to develop a national uniform, standardized data set for all school nurses to collect specific data points the same way.

For the 2015-16 school year, school nurses are encouraged to collect specific data on the number of nurses and

health personnel in schools, the number of children with diagnosed chronic health conditions, and the disposition of children seen in the school nurse office. The Kentucky Department of Education's School Health Services Program is proud to be participating in this very important initiative. Surveys will be emailed via the School

Nurse and District Health Coordinator's listserv in late April or early May. ALL Kentucky school nurses are encouraged to participate in order to help demonstrate the importance of school nursing. This data is a valuable tool that can be used in comparison to district wide data when presenting to local school boards.

Kentucky School Nurses Association 2016 Conference

The Kentucky School Nurses Association (KSNA) will host its annual School Nurses Conference July 17-19 at the Embassy Suites Hotel in Lexington. Continuing education hours will be provided. Registration and lodging information will be available. Watch the KSNA website, www.kysna.com, as well as the school nurse and health coordinator listserv, for further announcements.

Naloxone (Narcan) Administration in Schools

Adapt Pharma, in conjunction with the Clinton Foundation, will be offering a free kit of a Naloxone nasal spray to every high school in the United States. The Kentucky Department of Education's School Health Services Division is working closely with the Kentucky Department of Public

Health to adapt its current protocol to include nasal administration.

We are also working with Adapt Pharma regarding the access of the Naloxone kits to schools. Watch the School Health Services Newsletter for updates and developments.
